

6516208484.txt

Dear FCC Commissioner,

This letter is written in support of the satellite radio broadcasting system. As a person who has traveled extensively across the U.S. and the world in the military, I am keenly aware of what it feels like to be without information to stay in contact with what is going on in the world. Satellite radio and television provides the listener with the opportunity to enjoy the types of music, information, news, or sports that they enjoy. Restricting this based on the input of organizations with a "special interest" goes against the freedoms that we all wish to enjoy.

I do not mind paying any additional costs or fees to enjoy this service.

Wayne Booker
